The Kiln is a uniquely designed heating attachment that is compatible with box mods and mod batteries. The Kiln is made completely out of pure ceramic and it utilizes an advanced ceramic heating disc to evenly vaporize your wax consistency products, producing a smooth and pure taste. The Kiln's pristine look and powerful performance make it a must-have for anyone who enjoys vaping waxy products.

Key Features:

- Made of Pure Ceramic
- Increased Airflow Design
- For Wax Consistency Products
- Patented Ceramic Heating Disc Technology

The Kiln RA ®

Replaceable Atomizer

It only gets better!

The Atmos Kiln RA builds upon the original Kiln attachment by introducing replaceable atomizers to the iconic waxy heating attachment. Easy to use and maintain, the Kiln RA's deep ceramic chamber is capable of handling an impressive amount of product, satisfying one of the biggest requests of waxy vapers. Renowned for its versatility, the Kiln RA is equipped with an advanced dual post system designed to evenly distribute heat along the chamber's advanced ceramic heating discs. The device is designed to sit flush with all box mods and mod batteries. The Kiln RA firmly establishes itself as one of the premiere wax consistency attachments today.

FORGE!

The Forge Plus is a uniquely designed wax consistency heating attachment, and the kit comes complete with a powerful 510 900mAh lithium-ion battery. The Forge Plus' dual coil atomizers combine the power of titanium coils with the potent flavor producing qualities of ceramic rods to create one of the most efficient wax consistency vaporizers available. Durable and compact, the attachment is equipped with a high grade coating and a splash prevention mouthpiece, keeping your product securely inside the chamber as you vape. The Forge Plus is also equipped with adjustable airflow allowing users to increase or decrease the amount of air moving through the Forge Plus, making their draws bigger or more flavorful. The Forge Plus is a must have for anyone interested in vaping wax consistency products.

Available as a KIT or SET

- Dual Coil Ceramic/Titanium Atomizer
- Dual Coil Quartz/Titanium Atomizer
- 950mAh Lithium-Ion Battery
- Splash Prevention Mouthpiece

The Studio Rig is a portable system made to fit all box mods and mod batteries. It includes a high-grade titanium nail, for wax consistency products, and an additional embedded ceramic chamber for dry herbs. The Studio Rig features a unique system that allows you to swap out a variety of different chambers. The glass attachment filtrates and cools the vapor, moving it through the percolator to create smooth and flavorful draws. With an unrivaled versatility and a completely solder-free composition containing some of the finest materials available, the Studio Rig establishes itself as one of the world's premiere vaping attachments.

- Compatible with All Box Mods and Mod Batteries
- Interchangeable Heating Chambers
- High-Grade Titanium Nail for Wax Consistency Products
- Embedded Pure Ceramic Heating Chamber For Dry Herbs
- Glass Water Filtration/Percolator and Cooling System
